

Want to assist in surgeries? Become a surg tech!

You can earn a Surgical Technology Associate in Applied Science degree in two years at Black Hawk College. Applications for Fall 2020 are due **March 1**.

The Surgical Technology Program is a career-oriented program that prepares students to function as part of a team in the operating room setting. This includes preparing instruments, setting up the operating room and assisting with the care of patients undergoing surgery. Classes are at the Quad-Cities Campus in the Health Sciences Center.
