

Black Hawk College Foundations are committed to securing resources in the interest of education. We work with students to provide scholarship support, help donors fulfill their philanthropic goals and provide funds for program development and facilities enhancement.

Giving to either of these organizations allows you to assist students and leave a legacy to the college. It can also be a meaningful way to honor family and friends.

Both foundations meet needs in the areas of scholarships, general endowment, faculty development, facilities, instructional equipment, campus beautification and more.

The [Foundation Scholarship Application](#) can be submitted from **March 15 to June 1** each year. Students complete only one application whether they are enrolling at the Quad-Cities Campus or the East Campus. Recipients are notified during the summer.
