School Performance Report

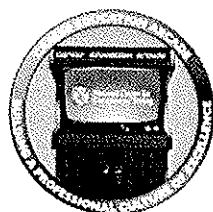

NCCT respects and protects examinee confidentiality at all times. Only authorized school/program officials may access full NCCT score reports, if released to them by their student/graduate examinees. This information may not be released to third parties without the expressed written permission of those examinees. Individual student/graduate certification scores that are not released to schools will still be part of the aggregate school performance report data, but will not be reported individually. Aggregate school performance reports are provided to schools for purposes of accreditation reporting and program assessment.
