Thank you for risking your life every day, even during these times when it seems your bravery goes unappreciated. Thank you for running into what most people would run away from. You are heroic for risking your life every day in dangerous situations.

I would like to thank Srg. Scott Lansing of the Davenport police department for his bravery in the field. Srg. Landing had been shot in the line of duty and was lucky enough to walk away from the incident in good health due to being hit on his holstered weapon. I'd like to thank the continued bravery and service.

Thank you to our first responders who put their lives on the line daily. Not knowing what events the day might hold is very difficult for some to comprehend. The things our responders see that many of us do not is amazing to believe.

Cole VandeVoorde

I would like to nominate the Moline fire department for helping me when I was in my car accident on November 5, 2020. I think they deserve the award because they came and helped me after my accident. They made sure that everything was okay and that I was doing okay afterwards.

I would like to thank all of the first responders in the Chicago area for being able to do their job in monitoring the streets from deviant acts while in a pandemic. Another thank you to hospitals, fire departments, for helping those in need and to a big thank you to the first responder families for the support you give them to carry out their job?

Michael Boggess

I just wanted to thank all first responders and those who put their lives on the line for strangers. It takes a rare and unique person to run towards danger and save/protect people they don't even know. First responders regularly do not get any praise or thank-yous from the people they save or help, but they keep working every day.

Michele Beck

Thank you for going places and assisting people that most of us would refuse to see and do! Your efforts do not go unnoticed. Whenever I hear a siren, I think of those who are traveling to the danger and say a prayer for the safety of all involved.

Morgan Laxton

I'd like to thank all first responders for what you do. Without you we'd be in trouble. You put your life on the line everyday for us. Also you drop everything and anything at anytime to help somebody out if you need too. I look up to you guys because this is my future as well.

Ndikumana Helena

I would like to thank all the first responders from the bottom of my heart for what they do every single day just to make sure we're safe. Not everybody can do the job you guys do. Ya'll get to leave those you love behind just to fight for total strangers. The job you guys do will never get unnoticed.

Nicholas W Frey

I would like to thank all of the first responders in the Quad Cities, especially all of the police officers, who have not only continued to serve their community through COVID, but also though all of the hostility towards law enforcement that we have seen over the last couple of years. Thank you!

Octavia Rivera-Blancke

Shelby Holley

I want to say thank you to all police officers, for keeping their head tall, and continuing to go to work, helping people, enforcing the law, and looking for new ways to help build that relationship with society to get the trust back. I know it can be hard in today's world, but many people still and will continue to be on your side of things

Shelby Holley

I want to thank all EMS and anyone else in the medical field for still doing everything they can to help us, even if that means risking getting sick and dying. Even though part of the job is risky, in today's world it is even scarier to do your job because of what could happen to you in the process, both physically and mentally. We appreciate you and are thinking of you!
