

MUSIC INDUSTRY CERTIFICATE

Description

The Music Industry Certificate (MIC) curricula is primarily designed to provide the basic tool set required for local, regional or national entry-level employment in a variety of music-industry related settings. Secondly, the program is also designed to position the student to transition into a higher-degree music program at a two-year or four-year institution, either locally, regionally or nationally.

Admission Requirements

High school graduate or equivalent.

Employment Opportunities

Students completing the MIC may find positions with music marketing and sales companies, record companies, arts management firms, music publishing companies, music festival promoters, music recording studios or music production companies. Other job opportunities may include advertising agencies, video game companies, radio/TV stations or creating one's own work as a freelance artist. If students decide to continue their education, several completed courses in the program will count toward the general educational core and the music components of an Associate in Arts degree.
