

TRANSFER POINTERS . . . plan your transfer to

Monmouth COLLEGE

Monmouth Course Credits. One course credit is equal to 4 semester credits.

Transfer GPA and Min. college credits to apply as transfer student.

Each applicant is evaluated on his or her individual merits. The college seeks to develop a comprehensive understanding of each applicant's abilities and potential, rather than make decisions on the basis of single test scores or other isolated credentials. Scholastic record, rigor of curriculum, standardized test scores (if applicable), recommendations, writing samples and personal qualities—such as motivation, goals, maturity, and character—are all considered.

Students who have already graduated from high school and have earned college credit after their high school graduation should apply as transfer students.
